

To All,

Below is one example of local and/or regionalized threats and how they concern federal departments such as ours.

(From MD ARNG Daily Intel Brief 7JUL04)

(U//FOUO) Weapons and Anti-Government Literature Found in Vehicle Search, CA:

(U//FOUO) On 06 July 2004, FBI Sacramento, in the execution of a vehicle search warrant, discovered various items believed to be sub-components for an Improvised Explosive Device, several weapons, ammunition, and anti-government literature. The vehicle was seized in conjunction with the investigation of an assault on a Federal Officer. The subject, who is in custody and has made a full confession to the assault, fired on a US Forest Service (USFS) Law Enforcement Officer and a civilian USFS employee after a vehicle pursuit. The subject fled the initial interview location, which caused the vehicle pursuit. The subject was eventually located and apprehended by local authorities.
